

Class Recommendation Lists Fall 2023-Spring 2024

Please find attached a listing of student placement recommendations for the upcoming academic year. These recommendations are based on Dance & Company student enrollments as of May-August 2023. Our faculty created these class recommendation lists based on each student's history of participation and with consideration to class sizes. This list is not exclusive and does not include new students, transfer students, or dance families new to our area. It also does not include students, who have historically studied a single dance form, who now wish to pick up or to switch over to instruction in an alternate dance style.

NOTE, the class your child is recommended to attend may bear the same, or similar, title as it did last year. This does NOT mean that any student will be receiving the same or lesser level of instruction as last year. The new class will pick up instruction from the point where last year's class ended. Furthermore, all classes, as always, will move forward, while simultaneously continuing with positive practice and review of previous material. Proper technique, execution, and vocabulary is attained through repetition and positive practice. Each student is challenged at her/his individual level of developmental instruction. The class recommendations for each student listed on the following pages have been carefully considered with the best interests of each student's success in mind.

If the class recommended for a student presents an unmanageable conflict in scheduling, the faculty requests the student attend class at one level below the recommended level. It is much better for the dancer to be a successful leader in class, performing at the top of the class, rather than to be struggling throughout the year.

Current dance families from this past fall, spring, and summer will be given the opportunity to register for classes starting on July 29th. Open registration for new or returning dancers will begin on August 1st. Space is limited, so be sure to register early! Contact Rebecca Thomas, Educational Director, with questions about recommendations at rebecca.m.b.thomas82@gmail.com.
